12th Annual MU Online Horse Auction & Fundraiser

2018

Division of Animal Sciences
College of Agriculture, Food and Natural Resources
The MU Equine Teaching Facility is holding its 12th Annual Online Auction and Fundraiser. Five weanling and yearling APHA and AQHA registered horses are available. Bidding starts mid-October through November 8th at 7:00 pm CST.

All proceeds benefit the MU Equine Program and support student activities in our teaching program.

The University of Missouri Equine Teaching Facility, a part of the Division of Animal Sciences, is known for raising quality horses with remarkable athletic potential since 1959. Horses raised in this program have excelled in various events including cutting, barrel racing, roping, jumping, eventing, hunt seat, and western pleasure showing. The University of Missouri Equine Program produces an annual sale in November to showcase a select group of horses. The program raises four to ten foals each spring, emphasizing quality not quantity. Foals are born and raised at the facility in coordination with equine breeding and management courses. This year the MU Equine Program will be auctioning off a variety of AQHA & APHA yearlings and weanlings. Since birth, the sale horses have been extensively handled and trained by undergraduate students through courses taught at the MU Equine Teaching Facility.

This annual auction provides tremendous hands on opportunities for our students to learn about careers in the equine industry, but also professionalism and problem solving. Our primary goal is to teach our students about responsible horsemanship. This includes providing complete histories on each horse and doing our best to place horses in long-term homes by being honest and forthcoming with each horse’s history. The MU Equine Program has been successful in providing our Equine Behavior & Training students with experience handling and training a wide variety of horses. This class focuses on natural equine behavior and strategies for modifying their response to stimuli through training. By fine-tuning their non-verbal communication and timing of reinforcements with their assigned horses, students are able to gain patience and improvement in their own communication skills.
Students in our Equine Facility Management & Marketing class learn professional skills such as taking photographs for equine marketing, writing descriptions on individual sale animals, creating sale portfolios for each horse, interfacing with clients at our sale preview event, and producing videos highlighting each individual animal’s training. Throughout the semester, this class also practices critical thinking and problem solving by actively managing and caring for the MU Animal Sciences equine teaching herd. After the sale is over, students focus on examining the economics of running an equine facility and will focus on ways to generate income through various aspects of the equine industry.

All proceeds from our auction benefit the MU Equine Program and support student activities at our teaching facility. Funds are directly used to care for our teaching herd and purchase classroom supplies. Additionally, this auction provides our students with valuable real-world experiences by training horses and professionally communicating with potential buyers. It is with your help that we are able to continue to educate the future faces of the equine industry.

All bidding occurs online, allowing buyers to know the current price and to bid accordingly. Bidding opens in mid-October and will close at 7:00 pm CST on November 8th, 2018. We will host a Horse Sale Preview on Saturday, November 3rd, 2018 from 10:00 am to 2:00 pm. This allows potential buyers to visit at their convenience to personally inspect our sale horses and see the horses being presented by their student trainers. We invite people to come to the preview, even if you aren’t interested in purchasing a horse, to learn about our program, bid on silent auction items, and support our students’ hard work.
What’s Unique About Our Sale?

By purchasing a horse, you are directly contributing to the education and training of our next generation of horsemen and women.

It is our goal to place these horses in quality, life-long homes. To achieve this mission, all horses are sold with their own sale portfolio. Portfolios include complete medical records and detailed daily journals of each horse’s training program since birth. Medical records include documentation of all vaccinations, deworming, Coggins testing, farrier care, dental care, mild cuts and abrasions, lameness, etc. A veterinary statement is included for any horse with illnesses or injuries requiring prolonged veterinary treatment. These portfolios also include a letter from the MU Equine Program Coordinator describing the horse, additional photographs, extended pedigree information, training journals, current housing and diet, and complete health records. Sale portfolios are available for viewing at our Horse Sale Preview or via e-mail starting November 5th.

All of our sale horses have been raised at the University of Missouri Equine Teaching Facility. Each of our horses complete an extensive amount of ground work and general handling beginning the day they are born. During these early training sessions, the foal is desensitized to everyday handling including becoming accustomed to having their hooves, nose, eyes, ears, and mouth touched. They also stand quietly for haltering, grooming, tying, deworming, and receiving vaccinations. In addition to the foals being desensitized at an early age, they are also handled from birth by students with varying amounts of equine experience, which enables the foals to become comfortable in a variety of handling situations.
During our fall training class, our horses are desensitized to various objects and taught to cross obstacles such as walking over a raised bridge, cross rails, tarp, and loading/unloading in a step-up trailer. Horses stand tied for general grooming along with picking up feet, spraying, clipping of bridle path, and vacuuming. As their training progresses we teach them to trot in hand, yield their hips and shoulders, and lunge at the walk. We also train each horse to various obstacles and novel objects that they may eventually see during their riding career. After general groundwork and obstacle course training, we introduce tack to our horses. This gets them used to the movement and feel of tack in preparation for working under saddle later in life. This additional training for our horses also allows our students to learn how to quietly lead so that they are willing and calm to accept new objects and tasks.

A couple weanlings are selectively held back to be sold as yearlings in the following year’s sale. We determine this based on foaling dates and siblings being sold. These yearlings have their previous training solidified, and advance to skills such as carrying a bit and bridle, full sized tack, and other skills that prepare to start under saddle training as two-year-olds in their new homes. Our horses are unique to others available because it is uncommon to find young stock that have been exposed to, and are able to complete, this extensive and varied list of tasks.
Horse Sale Preview Event

We are hosting a Horse Sale Preview on Saturday, November 3rd between 10:00 am and 2:00 pm to allow potential buyers an opportunity to personally inspect our sale horses, browse through their sale portfolio, and view them being worked by their student trainers. This event is held at the University of Missouri Equine Teaching Facility, located at 4400 E. New Haven Road, Columbia, MO 65211.

The student trainers will be working with the horses throughout the day and our marketing students will be available to visit with prospective buyers. This event is a huge part of providing real-world business experience to our students. Even if you are not in the horse market this year, consider stopping by to visit our program and encourage our students in all their hard work! We will also hold a silent auction of various items during our preview.

Horse Sale Preview: Sat., Nov 3, 2018 10:00 am - 2:00 pm
MU Equine Teaching Facility
4400 E. New Haven Rd
Columbia, MO 65211

Online Auction: Bidding Starts mid-October
Bidding Ends Nov 8 at 7:00 pm CST
Horses must be picked up by Nov 15 at 12pm

Visit http://horseauction.missouri.edu for individual horse information, sale terms and conditions, or to place a bid. You can also follow us at MUEquine on Facebook & YouTube for weekly updates and video clips. We will continue to add training photos and video links to our sale page, so check back frequently!

### Origin of Horse Bids

![Map of horse bids origins](image)
Directions on How to Place A Bid

1) Registration
- Visit: [http://horseauction.missouri.edu](http://horseauction.missouri.edu) and click on “Register” to create a username and password. Make sure to read the sale Terms and Conditions completely.
- You will receive a confirmation e-mail after processing. It may take up to 24 hours for approval, as this is NOT an automated process.

2) Make A Bid
- Click on the “Make Bid” button on the screen for the horse you wish to bid on. The minimum bid listed is the reserve price on each horse.
- There are two strategies you can use for bidding:
  - Place a bid $100.00 higher than the current bid.
  - Login to place a new bid each time you are outbid.
  - Enter a confidential, maximum dollar amount that you wish to bid.
  - If you are outbid, the auction will automatically execute a bid by increments of $100 above the competitive bid.
  - You may place additional bids as time allows if maximum bid is passed.

3) Monitor Bid Activity
- Check the website often for bid updates, especially during the final days of the auction.
- Bidding is set to close at 7:00pm CST on Nov 8th, 2018. However, if a bid is placed during the last five minutes of the auction, time for that particular horse will be extended by an additional five minutes.

4) Notification of Purchase
- The purchaser of the horse will be notified by e-mail within one hour of the auction closing.
- On Nov 9th the purchaser will be reached by telephone to set up an appointment time for pick up.

5) Payment & Pickup of Horse
- Horses must be picked up by noon on Nov 15th, 2018. Payment by certified or cashier’s check is due at the time of pick-up and should be made out to The Curators of the University of Missouri.
- Arrangements can be made to board the horse after this deadline if necessary.

For bidding assistance contact us at MUEquine@missouri.edu or (573) 884-7836.
Yearlings Offered For Sale

1. MU Docs Lady In Red - “Jada”
   
   2017 Red Dun Filly  
   AQHA Registered  
   Sire: Doc O Valentino  
   Dam: Zippos Lil Lady Bar

**MU Docs Lady in Red**, also known as Jada, is a gorgeous red dun AQHA yearling filly raised at the University of Missouri Equine Teaching Facility. Jada is a full sibling to MU Zippity Do Doc, a weanling filly also offered in our auction this year (see page 20). Since birth, Jada has been handled by students with a variety of equine backgrounds. She is compact and athletically built, allowing her to be well suited for western performance events. Jada has a quiet demeanor and is patiently focused when mastering new skills. Jada is estimated to reach a mature height of around 15.1 hands. She would make an excellent prospect for western working or pleasure type disciplines, as well as an enjoyable recreational horse.

Jada has excellent ground manners and stands quietly to be caught, haltered, tied, and vacuumed. Her training includes moving away from pressure, yielding her hind quarters and shoulder, as well as lunging at the walk. She has mastered various obstacles such as crossing a raised wooden platform, stepping over cross rails, weaving through traffic cones, walking confidently over a tarp and trotting in hand. Jada has been desensitized to many objects such as a leg wraps, a large bouncy ball, tarps, and full tack including bridle. Jada also loads and backs off a step-up trailer calmly, and stands for spraying, farrier care, and clipping of her bridlepath. Jada is currently training to lunge at the trot, being desensitized to driving lines, and responding to bit cues from a trainer on the ground.
Jada is sired by **Doc O Valentino**, a red dun AQHA stallion that was donated to the university after both a successful career in the show ring and an outstanding record as a sire. He was named IBHA National Futurity Champion in 3 and 4-year-old western pleasure. Doc O Valentino’s offspring have excelled in western pleasure, trail, western riding, reining, roping, and cattle work. Jada’s paternal grandsire, **Doc O Mos**, was a World Champion and producer of extraordinary pleasure offspring and AQHA Congress winners. Jada’s paternal bloodlines are the epitome of traditional western performance horses that have the ability to show in pleasure-type disciplines, but also the athleticism for ranch riding and cattle work. Jada’s paternal bloodlines also include AQHA Hall of Fame inductee **Doc Bar** and All-Time Leading Sire **Impressive**.

Jada’s dam, **Zippos Lil Lady Bar**, has produced offspring that have shown in western disciplines and are used for recreational riding. Zippos Lil Lady Bar’s sibling, also out of the dam **A Lil Ladylike**, was Reserve Congress Champion in 13-and-under hunter under saddle and earned over 160 AQHA performance points including a Superior in hunter under saddle. Jada’s maternal grandsire, NSBA Hall of Fame stallion **Zippos Mr Good Bar**, is an Equi-Stat All-Time Leading Sire in pleasure earnings, performance point earners, and performance points earned. Jada’s maternal bloodline also includes NSBA and AQHA Hall of Fame stallion **Zippo Pine Bar**.

Jada is up to date on all routine health care including farrier care, vaccinations, deworming and Coggins testing. Jada is 5-Panel N/N through her sire and dam. Due to her young age, an experienced handler is recommended to complete Jada’s training. This stunning filly has an impressive build, an eye catching color, and a willing personality making her a great addition to any barn.
MU InvestNValentino, also known as Jockey, was born at the University of Missouri Equine Teaching Facility. Jockey is a chestnut AQHA yearling gelding with smooth, collected movement and stellar conformation. He also has just enough chrome to put him in the spotlight. We think Jockey is best suited for western disciplines and would be a good prospect for the western pleasure show ring or recreational riding. He is a confident gelding and is always willing to attempt new tasks. We expect his mature height to be around 15.1 hands.

Students have extensively handled Jockey since birth and he has been exposed to a tremendous amount of groundwork. Jockey stands quietly for catching, haltering, tying, and general grooming including farrier care. Additionally, Jockey remains relaxed for spraying, clipping of bridlepath, and vacuuming. This yearling willingly leads through many different obstacles such as walking across tarps, a raised wooden platform, ground poles, and cross rails. Jockey yields his hip and shoulder beautifully and requires only light cues as he serpentines through cones, lunges at the walk, and trots in hand. Jockey has been desensitized to many different objects and carries full tack including a bridle. Jockey is proficient at loading on and off a step-up trailer. We are now working with Jockey to desensitize to driving lines, flex to bit cues, and lunge at the trot.
Jockey’s sire, **Doc O Valentino** is an AQHA point earner and was the 1998 National Futurity Champion in western pleasure. Doc O Valentino’s offspring have earned 96.5 AQHA show points, over 139 IBHA show points, and 70 AQHA All Around or Reserve All Around wins. These include IBHA Reserve World Champions and Open ABRA Reserve World Champions. His offspring have excelled in halter, showmanship, western pleasure, horsemanship, trail, western riding, reining, roping and cattle work. His foals are a great fit for ranch horse showing due to their versatile nature. Jockey’s paternal grandsire is the World Champion stallion **Doc O Mos**, whose offspring have earned over 6,300 performance points and 2,000 AQHA novice points.

Jockey is the last foal, via embryo transfer, out of our best producing broodmare. His dam, **Vested Miss Deller**, was a well-bred western pleasure mare who produced offspring excelling in western pleasure, horsemanship, showmanship, hunter under saddle, hunt seat equitation, and performance halter. Her offspring have earned over 1,700 show points, 8 performance Superior awards, and 18 performance ROM awards. Vested Miss Deller was a once in a lifetime broodmare, who gifted her foals with quiet dispositions and naturally easy-going movement. Jockey’s maternal grandsire is **The Invester**, who was inducted into the AQHA and NSBA Hall of Fame with offspring earnings of 23,000 AQHA show points.

Jockey is up to date on all routine health care including farrier, vaccinations, deworming and Coggins testing. Jockey’s sire is 5-Panel N/N, and his dam was N/N for HYPP (not tested for others prior to her death). Due to his young age, an experienced handler is recommended to complete Jockey’s training. With this gelding’s correct build and remarkable bloodlines, we are excited to see him started under saddle and begin his performance career. You can bet he has a Mizzou cheering section!

3. MU Best Bet Yet

**MU Best Bet Yet**, also known as Killian, is a beautifully built appendix Quarter Horse born in April of 2018 at the University of Missouri Equine Teaching Facility. This gelding has long sweeping strides and a naturally level head carriage. Killian is expected to reach a mature height of at least 16 hands. His calm temperament and willingness to learn will be a huge asset in his future career. Killian’s size and athleticism make him a terrific performance prospect for both hunt seat and western disciplines.

Killian has been handled extensively since birth by students of varying experience levels. He is responsive to cues and respectful of his handler’s personal space. Killian is patient for catching, haltering, leading, and tying. He stands quietly for grooming, farrier care, spraying, and clipping of his bridle path. Killian also loads and unloads in a step-up trailer confidently. Over the past few months Killian has been desensitized to various objects including a large bouncy ball, tarps, and other novel objects. In order to grow accustomed to tack, he also carries a small pony saddle. Killian has mastered various obstacles such as weaving through cones, leading over tarps and raised wooden platforms, as well as walking over ground poles and cross rails. We are now working to solidify trotting in hand, yielding his shoulder and hip, and standing for vacuuming. We hope to begin lunging at the walk by sale time.
Killian is sired by **Best Bet Chet**, a 16.1 hand palomino Quarter Horse who has been part of the MU breeding herd since 2009. His superior conformation is passed onto his offspring and translates into beautiful, fluid movement. Best Bet Chet’s full siblings have been recognized as IBHA World Champions in lunge line and halter, ABRA Reserve World Champions in halter, and are IBHA point earners in hunter under saddle and western pleasure. Best Bet Chet’s offspring are tremendous all-around performance horses, excelling in the western and hunt seat show ring, cattle disciplines, barrel racing, and recreational riding. Killian’s paternal grandsire, **CL Buckley**, is an IBHA World Champion and two-time ABRA World Champion. CL Buckley has sired over 130 AQHA, IBHA, ABRA, and PHBA World and Reserve Champions. Killian’s paternal bloodlines also include versatility sire **Coosa**, and AQHA Champion producer **Triple Chick**.

Killian’s dam, **Yes Ima Detail**, is a stunning 16.1 hand hunter-type mare with natural athleticism and flat-kneed movement. Yes Ima Detail’s siblings have earned over 550 AQHA performance points and include full siblings **Tella Tall Detail**, AQHYA Reserve World Champion in hunter under saddle, and **Slow Moe Detail**, a MQHA Champion in novice youth hunter under saddle. Killian’s maternal grandsire is the legendary hunter sire **Last Detail**, an NSBA Hall of Fame inductee and NSBA and AQHA All-Time Leading Sire. Last Detail’s offspring have excelled in hunt seat disciplines and earned over 28,000 AQHA points, 375 ROMs, 150 AQHA Superiors, 13 AQHA Champions and 26 AQHA World Championships.

Killian is up to date on all health care including vaccinations, deworming, Coggins testing, and farrier care. He is 5-Panel N/N through his sire and dam. Due to his young age, an experienced handler is recommended to complete Killian’s training. This is an impressive and willing gelding who is sure to turn heads either in the show ring or as a recreational horse.
4. MU Zippity Do Doc

MU Zippity Do Doc, also known as Kirby, is a red dun AQHA filly with a stunning blaze and hind half-stockings. Kirby is a full sibling to MU Docs Lady In Red, a yearling filly also offered in our auction this year (see page 14). Kirby was born in April of 2018 at the University of Missouri Equine Teaching Facility. She has been extensively handled by students of all experience levels since birth. This filly has impressive conformation and soft movement that is sure to catch people’s attention. With Kirby’s pedigree and quiet disposition, she is expected to excel as an all-around western performance prospect or in recreational riding. We estimate Kirby to reach a mature height around 15.1 hands.

Kirby stands quietly and confidently for catching, haltering, grooming, tying, clipping of her bridle path, and farrier care. Kirby has been desensitized to various objects such as tarps, a horse vacuum, and a large bouncy ball. In addition, Kirby has mastered walking through various obstacles such as ground poles and cross rails, as well as over a raised wooden platform. She is respectful of her handler’s body position while weaving back and forth through cones and trotting in hand. Kirby will calmly load into and back off a step-up trailer and comfortably carries a small pony saddle in preparation for future training under saddle. By sale time, we expect Kirby to yield her hip and shoulder and begin lunging at the walk.

Kirby’s sire, Doc O Valentino, is a 1998 IBHA National Futurity Champion and AQHA point earner in western pleasure. Doc O Valentino is a proven producer, with offspring excelling in halter, showmanship, western pleasure, horsemanship, trail, western riding, reining, roping and cattle work. Doc O Valentino’s offspring have been named IBHA Reserve World Champion and ABRA Reserve World Champion in western pleasure. His offspring have earned over 230 show points. Kirby’s paternal grandsire is Doc O Mos, a World Champion in western pleasure who was also competes in working cow events. Doc O Mos has sired many successful point earning offspring in western pleasure and multiple AQHA Top Ten recipients. Kirby’s paternal bloodlines also include AQHA Hall of Fame inductee Doc Bar and All-Time Leading Sire Impressive.

Kirby’s dam, Zippos Lil Lady Bar, was trained in western pleasure before joining our breeding herd. A sibling of Zippos Lil Lady Bar, also out of A Lil Ladylike, has earned an AQHA Superior in hunter under saddle and over 160 AQHA performance points. Zippos Lil Lady Bar’s offspring are competing in western disciplines and enjoyed for recreational riding. Kirby is her last foal. Kirby’s maternal grandsire, Zippos Mr Good Bar is a NSBA Hall of Fame inductee and a sire to point earners of over 44,000 total points and over $1.69 million in earnings. Zippos Mr Good Bar is an All-Time Leading Sire with offspring consisting of 20 AQHA World Champions, 17 AQHA Reserve World Champions and multiple Congress winners. Kirby’s maternal bloodlines also include AQHA and NSBA Hall of Fame stallion and All-Time Leading Sire, Zippo Pine Bar.

Kirby is up to date on all routine health care including vaccinations, deworming, Coggins testing, and farrier care. Kirby is 5-Panel N/N through her sire and dam. Due to her young age, an experienced handler is recommended to complete Kirby’s training. This filly has a great mind and takes new tasks in stride, making her a great addition to any barn.
MU Aint She Fancy, also known as Kali, was born in March of 2018 at the University of Missouri Equine Teaching Facility and has been handled extensively since birth by students of varying experience levels. Kali is a double registered AQHA and APHA filly and is also enrolled in the APHA Breeders Trust. Kali’s bold overo markings set her apart; she is sure to catch the crowds’ attention with her bald face, partial blue eye, and four white stockings. Not only is she flashy, but Kali has a remarkable pedigree, well-balanced conformation, effortless movement, and quiet disposition. She is the total package. Kali is sure to excel in the show ring but would also make a wonderful recreational horse. This filly is predicted to reach a mature height of at least 16 hands. Kali is a great prospect for both western pleasure and hunt seat disciplines.

Kali has very respectful ground manners and stands quietly for catching, haltering, and handling. She is patient while tied and stands for routine grooming and farrier care. Kali has been desensitized to various novel objects such as flags, bouncy balls and tarps. She serpentine through cones and walks over a raised wooden platform, cross rails, and ground poles. Kali remains confident and trusts her handler when being introduced to new objects and obstacles. This weanling carries a pony saddle as preparation for under saddle training in a few years. Kali also loads and backs off a step-up trailer. We are currently working to

solidify vacuuming, spraying, clipping of her bridlepath, and trotting in hand. By sale time, we hope to also introduce Kali to yielding her hip and shoulder.

Kali’s sire, **The Ultimate Fancy**, is a sorrel overo AQHA and APHA double-registered stallion standing at 16 hands. He has been consistently ranked in the top 20 on the APHA Leading Sires List. This stallion’s offspring have won multiple APHA World Championships, AQHA Congress Championships, NSBA World Championships and PtHA World Championships. The Ultimate Fancy’s offspring have earned points in 17 separate events, including showmanship, lunge line, western pleasure, horsemanship, trail, western riding, hunter under saddle, hunt seat equitation, and reining. The Ultimate Fancy is the result of the pairing of APHA Leading Sire and World Champion **Mr Fancy Bonanza** with the premier mare **Sweet Celebration**. This impeccable cross produced a dozen offspring that together have earned 5,100 APHA points. The breeding to The Ultimate Fancy was kindly donated to our teaching program by Cross Creek Farms of Kentucky.

Kali’s dam, **Dellas Only Rose**, is a sorrel AQHA mare standing at 15.2 hands. She has produced offspring that have excelled in western pleasure, hunter under saddle, and recreational riding. Dellas Only Rose’s siblings, also out of **Vested Miss Deller**, are APHA and PtHA World Champions, AQHA Congress Top 10 and NSBA Co-Champions together earning over 1,700 show points. Dellas Only Rose is a granddaughter of two NSBA Hall of Fame inductees, **Invitation Only** and **The Invester**. Kali’s oldest full sibling, MU Fancy Investment, now stands 16.1 hands and has been shown in halter, hunt seat, western pleasure, and ranch horse while placing within the top 5 in her classes in North Carolina and South Carolina.

Kali is up to date on all routine health care including vaccinations, deworming, Coggins testing, and farrier care. Kali’s dam is 5-Panel N/N, and her sire is N/N for HYPP, HERDA, PSSM1, and MH. Due to her young age, an experienced handler is recommended to complete Kali’s training. Kali’s quiet disposition, remarkable pedigree and impressive conformation make her an excellent prospect for all-around opportunities in and out of the show ring.

**Sire:** Doc O Mos  
**Dam:** Sharpressive

**Doc O Valentino**, known as Doc, was the 1998 IBHA National Futurity Champion in 3 and 4-year-old western pleasure and an AQHA point earner in western pleasure. This handsome red dun stallion is a gem to our program as his willing attitude and gentle demeanor make him a great match for teaching our students about stallion handling and breeding. Doc has sired IBHA Reserve World Champions and Open ABRA Reserve World Champions in western pleasure. He has produced point earners in IBHA, ABRA, and AQHA as well as money earners in NSBA and NRHA. At one point in his breeding career he was exclusively crossed with working style mares to produce roping and ranch work horses. His offspring have excelled in halter, showmanship, western pleasure, horsemanship, trail, western riding, reining, roping, and cattle work. We believe his offspring are also a great fit for ranch horse showing due to their versatile nature. Doc’s produce have earned 96.5 AQHA show points, 139.5 IBHA show points, and 70 AQHA All Around or Reserve All Around wins.

Sire, Doc O Mos, is a World Champion stallion and a producer of exceptional pleasure offspring and several AQHA Congress Top Ten winners. Doc O Mos’ offspring have also earned over 6,300 performance points and 2,000 AQHA novice points.

**Sire**: CL Buckley  
**Dam**: Coosas Chick

**Best Bet Chet**, known as Chet, has a modern, tall build with effortless movement and a quiet nature. Chet's versatile bloodlines and athletic conformation make him well suited to produce all-around performance prospects. Chet has been extremely valuable in helping our facility produce high-quality foals as well as teaching our students about stallion handling and management. Chet is a full sibling to IBHA World Champions in lunge line and halter, ABRA Reserve World Champions in halter, and IBHA point earners in hunter under saddle and western pleasure. Chet's offspring have exceptional conformation, fluid movement, and gentle personality. They are excelling in the western and hunt seat show ring, cattle disciplines, barrel racing, and recreational riding.

Sire, CL Buckley, is an IBHA World Champion and two time ABRA World Champion. He is a leading sire of IBHA and ABRA World Champions, having sired over 130 AQHA, IBHA, ABRA, and PHBA World and Reserve World Champions. Maternal grandsire, Coosa, was a versatile sire, with offspring earning over 4,850 halter points and 1,640 performance points. Chet also carries the bloodlines of AQHA Hall of Fame horses Three Bars and Skipper W, in addition to AQHA Champions producers Sir Quincy Dan, Pretty Impressive, and Triple Chick.
The Ultimate Fancy is a 16 hand sorrel overo stallion that is double registered with both AQHA and APHA. The Ultimate Fancy is currently 12th on the APHA Current Leading Sires List for Point Earning Performance Horses and 16th for Performance Class Winners. The Ultimate Fancy is a true “All Around” sire with point earning offspring in 17 different events including showmanship, lunge line, western pleasure, horsemanship, trail, western riding, hunter under saddle, hunt seat equitation, and reining. He has produced multiple APHA World Champions, AQHA Congress Champions, NSBA World Champions, and PtHA World Champions.

The Ultimate Fancy is the result of the pairing of APHA Leading Sire Mr Fancy Bonanza and the premier mare Sweet Celebration. This cross produced 12 foals who earned a combined total of over 5,100 APHA points! Sire Mr Fancy Bonanza is an APHA World Champion as producer of APHA World Champions and earners of performance Superior awards. Dam Sweet Celebration is an All-Time Leading Performance dam in APHA.

**Sire:** Potential Investment  
**Dam:** Watchit Im Good

**Gonna Wanna Watchit** is a proven show horse, with a Superior in western pleasure and ROMs in halter and pleasure. Gonna Wanna Watchit has earned 21 AQHA halter points and 65.5 AQHA performance points, a Reichert Celebration Reserve Championship, and multiple Congress and World Show Top Ten placements. Gonna Wanna Watchit passes his performance ability and quiet nature to his offspring. His offspring are good minded with athletic conformation and soft movement, allowing them to excel in both the show ring and recreational riding. They have won in lunge line, showmanship, and western pleasure. We believe his offspring are also a great fit for ranch horse showing due to their versatile nature. We plan on breeding him to a handful of MU mares in 2019.

Gonna Wanna WatchIt boasts impressive bloodlines with 11 Hall of Fame Horses in the first five generations of his pedigree. He is a full brother to Watch My Potential, who sired a 2017 Congress Champion. Gonna Wanna Watchit’s bloodlines include AQHA and NSBA Hall Fame inductee Zippo Pine Bar, AQHA Hall of Fame inductee The Invester, and NSBA Hall of Fame inductees Zippos Mr Goodbar, The Big Investment, and Hotrodders Jet Set.

**Sire:** Zippos Mr Good Bar  
**Dam:** A Lil Ladylike

Zippos Lil Lady Bar is a fantastic mover and is very easy going. Before entering our breeding herd, she was trained in western pleasure. Her sibling, also out of A Lil Ladylike, earned a Superior in hunter under saddle while earning over 160 total performance points. This sibling also won Reserve Congress Champion in 13 and under hunter under saddle, and is an NSBA and AQHA Incentive Fund money earner. Zippos Lil Lady Bar is a favorite at our farm, being known for her patience and quiet nature. Her offspring are showing in western disciplines and being used for recreational riding. This mare is 5-panel negative for genetic testing. Zippos Lil Lady Bar’s last foal was born in 2018. She is now retired and enjoying the life of a teaching mare in our program. Her last foals are being sold in our 2018 auction.

Zippos Lil Lady Bar’s sire, Zippos Mr Good Bar is a NSBA Hall of Fame inductee that produced offspring earning 44,000 total points and over $1.69 million. He is an Equi-Stat All-Time Leading Sire of pleasure earnings, performance point earners, and performance points earned. This mare also goes back to AQHA and NSBA Hall of Fame horses Zippo Pine Bar and Zippo Pat Bars, NSBA Hall of Fame mare Tamara Wess, AQHA Hall of Fame horses Blondys Dude, Sugar Bars, Poco Pine, and Poco Bueno, as well as AQHA Champion Tiny Watch.

Sire: Only Him  
Dam: Vested Miss Deller

Dellas Only Rose is an eye catching mare with a world class pedigree. She is ridden both western and hunt seat, and produces foals that excel in both disciplines. Dellas Only Rose’s siblings, also out of Vested Miss Deller, have been named APHA World Champions, PtHA World Champions, AQHA Congress Top 10 and NSBA Co-Champions while earning over 1,700 show points. Dellas Only Rose has produced offspring excelling in western pleasure, hunter under saddle, and recreational riding. Dellas Only Rose’s offspring are showing in western and hunt seat disciplines, as well as being used for recreational riding. This mare is 5-panel negative for genetic testing. Her next foal will be expected in 2019.

Paternal grandsire Invitation Only is an NSBA Hall of Fame inductee. His offspring have earned over 77,000 AQHA points and nearly $3.2 million in total pleasure earnings. Maternal grandsire The Invester has been inducted into the AQHA and NSBA Hall of Fame and is an All-Time Leading Sire of Superior performance awards with offspring earning over 23,000 AQHA points. Dellas Only Rose also carries to bloodlines of NSBA and AQHA Hall of Fame inductee Zippo Pat Bars.

</table>

Sire: Last Detail  
Dam: Fancey Gift

Yes Ima Detail is a tall, hunter-type mare with outstanding conformation, athleticism, and fluid movement. Yes Ima Detail is trained to ride both hunt seat and western disciplines. Yes Ima Detail is a full sibling to Tella Tall Detail, the 2004 AQHYA Reserve World Champion in hunter under saddle, and Slow Moe Detail, a MQHA Champion in novice youth hunter under saddle. Her full siblings have earned over 550 AQHA performance points. Yes Ima Detail’s offspring are being used in hunt seat disciplines and recreational riding. This mare is 5-panel negative for genetic testing. Her next foal is expected in 2019.

Yes Ima Detail is a daughter of the legendary sire Last Detail, an NSBA Hall of Fame inductee and AQHA World and Congress Champion in junior hunter under saddle. He is also an NSBA and AQHA All-Time Leading Sire. Last Detail’s offspring have dominated the hunter under saddle disciplines earning over 28,000 AQHA points, 375 ROMs, 150 AQHA Superiors, 13 AQHA Champions, 26 AQHA World Championships, and 20 AQHA Reserve World Championships. Yes Ima Detail also carries the bloodlines of AQHA Hall of Fame horses Easy Jet, Lady Bug’s Moon, Canadian Horse of the Year L’EnJoleur, and US Racing Hall of Fame inductee Buckpasser.
Debutante is a beautiful mare with a tall build and elegant movement. She excels in hunt seat disciplines, but has the ability to place well in western events as well. Debutante is the epitome of an all-around show horse. Her early career focused on jumping with her most recent rider, Syndey Feager, showing her in novice youth in hunter under saddle, hunt seat equitation, western pleasure, western horsemanship, trail, showmanship, performance mares, and halter mares. In 2016, Debutante was named four-time MQHA Gateway Classic Circuit Champion, MQHA Novice Youth Walk-Trot Reserve High Point, and MRSC Hunt Seat Reserve Champion. In 2017, she was a MQHA March to the Arch Circuit Champion and as well as MRSC Showmanship High Point. Debutante has also earned a youth halter ROM, and was invited to the Youth World Show in 2017 and 2018. We are excited to have this mare on a two year loan to allow her to produce a foal in 2019 before returning to the show ring.

Sire, Coats N Tails, is an AQHA World Champion in junior hunter under saddle, and a champion of several hunter under saddle futurities. Coats N Tails is an All-Time Leading Sire for hunter under saddle earnings. Coats N Tails is sired by Invitation Only, an NSBA Hall of Fame inductee.
Sugar Coated Details is a daughter of MU owned mare, Yes Ima Detail (see page 30). Sugar Coated Details began training for English disciplines but was not able to compete due to a hoof laceration that occurred early in her training and led to her donation to the program. This large structured mare moves elegantly and effortlessly. Sugar Coated Details has spent several years as a teaching mare in our program while we waited for her to reach breeding age. She has become a favorite in our classes due to her gentle nature and friendly personality. This mare is 5-panel negative for genetic testing. We expect her foals to excel in hunt seat disciplines, with her first foal expected in 2019.

Sugar Coated Detail’s sire, Coats N Tails, is an AQHA World Champion in junior hunter under saddle and a champion of several futurities in hunter under saddle. Coats N Tails is an All-Time Leading Sire for hunter under saddle earnings. He has produced multiple AQHA and NSBA World Champions, AQHA High Point Champions, and ROM performance earners. Sugar Coated Detail’s maternal grandsire is the renowned sire Last Detail, a famous hunter under saddle stallion inducted into the NSBA Hall of Fame. He is a NSBA and AQHA All-Time Leading Sire. This broodmare’s bloodlines also include NSBA Hall of Fame horse Invitation Only.

**Sire:** Zips Chocolate Chip  
**Dam:** Blythe Impressor

**Zip to Chip** is a quality western pleasure bred mare who displays a beautiful jog and lope paired with an easy going personality. Zip to Chip’s full siblings have earned over 315 AQHA performance points, a Superior in amateur trail, and eight performance ROMs. Zip to Chip produces foals with athleticism, compact builds, and wonderful dispositions. Her offspring are showing in western disciplines and being used for recreational riding. This mare is 5-panel negative for genetic testing. Her next foal is expected in 2019.

Zip to Chip’s sire, Zips Chocolate Chip, is an NSBA Hall of Fame inductee and an AQHA World Champion in junior western pleasure. His offspring have won a total of over $1.1 million in pleasure earnings and over 44,000 AQHA points. He is an All-Time Sire of AQHA incentive fund earnings, Superior performance awards, and AQHA performance points earned. Zip to Chip’s dam, Blythe Impressor, also had an impressive show career, earning over 190 AQHA points, Superiors in both amateur and open western pleasure, and placing top 10 in the Heartbeat Limited Amateur Western Pleasure Sweepstakes. Zip to Chip’s pedigree also goes back to AQHA and APHA Hall of Fame inductees Zippo Pine Bar and Zippo Pat Bars, All-Time Mare Producer Fancy Blue Chips, as well as AQHA Hall of Fame horses Poco Pine and Poco Bueno.
Zippin Easter Lilly is a beautiful western and ranch pleasure type mare. She was bred and raised by Craighead Show Horses, but was not started under saddle or shown as the family primarily showed Pintos and Paint horses at the time. Zippin Easter Lilly’s half siblings, also produced by Cannae, have been named PtHA Champions and Reserve Champions, Top Ten Pinto World, as well as Nebraska Pinto and South Dakota Paint clubs’ Open Futurity Champions. Zippin Easter Lilly’s correct structure and balance, paired with her willing attitude made her an excellent addition to our breeding herd. This mare is 5-panel negative for genetic testing. Zippin Easter Lilly’s first foal was born in 2016, and sold as our highest selling horse that year as a weanling. We are keeping her 2018 filly to sell as a yearling next year. Her next foal is expected in 2019.

Zippin Easter Lilly’s sire, Zippos Mr Good Bar is a NSBA Hall of Fame inductee that produced offspring earning over $1.69 million and 44,000 total points. He is an Equi-Stat All-Time Leading Sire of pleasure earnings, performance point earners, and performance points earned. Zippin Easter Lilly also goes back to AQHA and NSBA Hall of Fame horses Zippo Pine Bar and Zippo Pat Bars, NSBA Hall of Fame mare Tamara Wess, and AQHA Hall of Fame horses Blondys Dude, Sugar Bars, Poco Pine, and Poco Bueno.
Vested Miss Deller was a remarkably well bred western pleasure mare that proved to be a wonderful producer of quality show horses excelling in western pleasure, horsemanship, hunter under saddle, hunt seat equitation, showmanship, and performance halter. Vested Miss Deller produced offspring that have been named APHA World Champions, PtHA World Champions, AQHA Congress Top Ten, and NSBA Co-Champions. These offspring earned over 1,700 show points, 8 Superior performance awards, and 18 performance ROMs awards.

Due to her advanced age, Vested Miss Deller was used as an embryo transfer donor mare for her last several foals, meaning she was bred, her embryo was collected, which was placed and maintained until foaling by another mare. This mare was negative for HYPP, but was not tested for others prior to her death. Her last foal is being sold in our 2018 auction.

Sire The Invester has been inducted into the AQHA and NSBA Hall of Fame with offspring earning over 23,000 AQHA points. Vested Miss Deller carries the bloodlines of AQHA and NSBA Hall of Fame horse Zippo Pat Bar, AQHA Hall of Fame horses Three Bars, Poco Bueno, and Wimpy, as well as AQHA Champion producer Silver Deller.

**Sire:** Zips Chocolate Chip  
**Dam:** HF Artists Pearl

_Scotch N Chocolate_ was bred and raised by Craighead Show Horses. She had soft movement, balanced build, and an inquisitive personality. While Scotch N Chocolate was never started under saddle, her sire has produced a PtHA Reserve World Champion in yearling lunge line out of only seven offspring. Her first foal was born in 2017, and was our highest selling horse that year as a weanling. This mare was negative for HYPP, but was not tested more before her death. Her second filly will be sold in 2019.

Scotch N Chocolate’s sire Zips Chocolate Scotch has produced APHA performance point earners and a PtHA Reserve World Champion. He is sired by Ready to Zip, an APHA World Show Champion shown in western pleasure, hunter under saddle, halter and trail. Offspring of Ready to Zip have earned over 11,000 APHA points, 160 ROMs, 64 Superiors and numerous versatility, honor roll, and futurity champions. He is also listed in the top 100 for APHA Point Earning Performance Horses and APHA Performance Class Winner. Maternal grandsire Skips Artist, a Pinto Equine Hall of Fame Inductee, is still known as one of the “ultimate western pleasure sire” despite his passing in 1996. Scotch N Chocolate also passed on the bloodlines of NSBA Hall of Fame inductee Zips Chocolate Chip and World Champion producer Scotch Bar Tommy.
The educational goal of the Animal Sciences Equine Program is to give students an integrated experience in the equine industry to better prepare them for equine related careers. This program serves approximately 200 undergraduate students each year. On-farm learning experiences provide students the opportunity to learn and enhance skills in equine care and handling, nutritional management, artificial insemination, training and equine management. The MU Equine Teaching Facility at South Farm has housed the campus’ Quarter Horse breeding program since 1959.

Each horse serves double duty as both a producer and an educator. By using our breeding program as the cornerstone of all our courses, students learn to make management decisions based on their foundation courses in nutrition, physiology and genetics. Undergraduate students involved in the Animal Sciences Equine Program are involved with Mizzou’s equine breeding herd each step of the way (breeding, foaling, training and marketing) in coordination with courses taught at the MU Equine Teaching Facility.

The MU Equine Teaching Facility is completely student operated, providing two or three management positions for upper level undergraduates, and an additional 60 undergraduate equine practicum students and volunteers devoting their time each semester to care for our horses. Along with caring for the herd, all students involved in the program participate in mastering various equine skills that are needed to work and be involved in the animal industry. Students from all backgrounds are accepted into this program, with 70% of those involved having limited or no previous equine experience.
All of our animal sciences students take courses in physiology, genetics, nutrition, and reproduction. Equine specific courses are also offered in the MU Animal Science Division including:

- **Equine Practicum:** This course focuses on learning hands-on equine skills through the care of horses at the university’s equine facility. Skills include: how to identify the general health and well-being of horses, recognize early onset of illness or lameness, understand basic feeding, housing, and daily care, and demonstrate the ability to handle and feed horses in a safe manner.

- **Foaling Practicum:** This class focuses on practical skills associated with parturition and neonatal care of horses. Topics include identifying signs of impending parturition, creating action plans for problems during foaling, monitoring of benchmarks during the pre and post-natal period, and assisting with neonatal care of foals. Students will gain hands on experience in each of these areas while assisting with foaling of mares at the Division of Animal Sciences Equine Teaching Facility.

- **Equine Facility Management & Marketing:** This course includes hands on barn management and care, handling young stock, taking sale photos, marketing sale horses and creating a realistic farm budget. This class organizes and runs our MU Horse Auction Preview in November and manages the Equine Teaching Facility during the fall semester.

- **Equine Behavior & Training:** This course discusses equine behavior as it relates to training. Each student is assigned a project horse to train for the semester. These horses are then sold in our MU Online Horse Auction in November.

- **Equine Breeding Management:** This upper level course covers topics including artificial insemination, foaling, estrus detection, stallion collection, semen evaluation, and handling newborn foals. This class manages the Equine Teaching Facility breeding herd during the spring semester and is in charge of all foaling and breeding activities, and focuses on the physiology behind reproductive management decisions.

- **Horse Production:** This upper level capstone course discusses advanced equine anatomy, nutrition, reproduction, physiology, behavior and disease. Each of these topics is combined to cover equine management practices, while considering the science behind our management decisions.
Auction Frequently Asked Questions

How do I register to become a bidder?
Go to “Register” near the top of the page header. Once your information is entered, it will go straight to our sale administrator for processing. This can take up to 24 hours, but often takes much less. Make sure to read the sale Terms and Conditions before registering as a bidder. Once you are approved as a bidder, you will receive an e-mail confirmation.

How do I place a bid?
After you are registered as a bidder, you can go to “Login” near the top of the page header. Use your username and password to sign in. Next, click “Make Bid” button on the screen for the horse you wish to bid on. All bids are in U.S. Dollars and are non-revocable. All bidding will be performed on the Internet by registered and approved bidders. You should monitor your bid activity by checking the website often for updated bids, especially during the final days of the auction.

There are two main strategies for bidding.

1. Place individual bids that are $100.00 higher than the previous bid. If you are outbid, you may log in and make a new bid each time.

2. Place a confidential maximum bid (“Proxy Bid”), where you declare the maximum dollar amount you wish to bid at this time. If you are outbid, the auction will automatically execute a bid by increments of $100 above the competitive bid. Maximum bids are strictly confidential and are not known by other bidders or the University of Missouri. If your maximum bid is passed, you may log in and place additional bids as time allows.

Why do people use maximum bids?
It is recommended to place a confidential maximum bid to ensure that you as the bidder do not get outbid simply due to not being around your computer or not having time to log in and place a new bid before the auction closes. With this system, you do not have to watch the auction continuously to make sure you are not outbid. However, you should still monitor bidding periodically. If your maximum bid is outbid before the auction closes, you may place additional bids as desired and as time allows.

What is a bid extension?
Bidding is set to close at 7:00 pm CST on November 8th, 2018. However, if a bid is placed during the last five minutes of the auction the time for that particular horse will be extended by an additional five minutes. Only after a 5-minute period passes with no additional bidding will the bidding close. This allows for bidders to have more time to think and react than with a live auction.

I’m having problems with bidder registration or placing a bid. What do I do?
E-mail MUEquine@missouri.edu or call (573) 884-7836. We do not have 24 hour assistance available, but will return your message as soon as possible.
Can I see the horses in person and/or have a veterinarian examine the horse?
Prospective bidders are urged to inspect the horses before offering a bid. Veterinary examinations are welcome, but are to be conducted prior to close of the auction at the bidder’s expense and by appointment only.

Horses are available at our Horse Sale Preview on November 3rd, 2018 between 10:00 am to 2:00 pm to allow potential buyers an opportunity to personally inspect our sale horses. This preview event is a huge part of providing real-world business experience to our students, and is held at the University of Missouri Equine Teaching Facility, located at 4400 E. New Haven Road, Columbia, MO 65211.

Potential buyers may also set-up other times by appointment to view horses. Bidders who are not able to attend the sale preview may request copies of sale portfolios via e-mail.

What kind of veterinary and routine care have the horse’s received?
All horses are up to date on all routine care. Individual health records are provided in each horse’s sale portfolio. This includes documentation of all vaccinations, deworming, Coggins testing, farrier care, dental care, mild cuts and abrasions, lameness, etc. A veterinary statement will be included for any horses with illnesses or injuries requiring prolonged veterinary treatment.

What kind of training have the horses received?
Horses raised at MU have been worked with since birth by students with varying levels of experience. Due to their extensive handling, they are accustomed to having their hooves, nose, eyes, ears, and mouth routinely handled. They also stand quietly for haltering, grooming, tying, deworming, and vaccinations.

All our sale horses are desensitized to novel objects such as clippers and tack. They are trained to calmly maneuver various obstacles including ground poles, cross rails, a raised wooden platform, and a pool noodle curtain. By sale time, we expect weanlings to trot in hand as well as carry a pony saddle. Our yearlings and two-years old will additionally flex to the bit and lunge at the walk and trot while wearing tack.

What happens if a horse does not receive a bid?
In the event that a horse doesn’t sell in the auction, we advertise them privately for an amount greater than their reserve or sell them in the next year’s auction. We find we have great luck placing them in new homes this way, as some buyers prefer to purchase them privately instead of through the auction.

How do I know if I purchased a horse?
The purchasers of each horse will be notified by e-mail within one hour of the auction closing. Additionally, on November 9th, the purchaser will be reached by telephone to set up an appointment time to pick up their new horse.
Can you tell me more about the Horse Sale Preview Event?
The Horse Sale Preview event will be held on Saturday, November 3rd between 10:00 am and 2:00 pm to allow potential buyers an opportunity to personally inspect our sale horses. This event is held at the University of Missouri Equine Teaching Facility, located at 4400 E. New Haven Road, Columbia, MO 65211.

The student trainers will be working with the horses throughout the day and our marketing students will be available to visit with prospective buyers. Sale portfolios on each horse will also be available. This event is a huge part of providing real-world business experience to our students. Even if you are not in the market for a horse this year, consider stopping by to visit our program and encourage our students on all their hard work! In addition to seeing the horses, you can enjoy food from our sponsors and participate in our silent auction.

How do we choose which horses we offer for sale each year?
Each year we sell the majority of the weanlings born at our facility. However, we try to keep back two each year to sell as yearlings to give our students opportunities to work with various age groups. Eventually, all horses raised in our program are sold.

In selecting which two weanlings to keep for an extra year, we try to split up similar horses among different years. For example, if we have two weanlings that are similar in color and markings as well as pedigree we will split them up and try to sell them in different years. Additionally, if we happened to have a foal born later in the spring they are often kept back so they have more time to mature and grow.

I live outside of Missouri. Can I still purchase a horse?
Historically, about half of our horses are sold outside of the state of Missouri, with 25 other states and two Canadian provinces represented by our bidders. Buyers are responsible for transportation, but we can assist you with gathering the proper transportation paperwork and, if desired, put you in touch with several commercial haulers.

If I purchase a horse, when do I come get it?
All horses must be removed from the University of Missouri by 12:00 pm (noon) November 15th, 2018, with pick-up times set up in advance by appointment. Full payment must be paid prior to the removal of the horse(s). Arrangements can be made to board the horse after this deadline if necessary.

If I purchase a horse, what should I bring to pick up the horse?
Payment must be completed before horses are picked up. When you arrive for pick up, you will need to provide a halter and any desired shipping supplies/equipment.
How do I pay for my horse?
Payment by certified or cashier’s check is due at the time of pick-up or within ten days of the sale ending (whichever occurs first). Payment should be made out to The Curators of the University of Missouri.

When will I receive registration papers on my new horse?
Registration papers and signed transfers will be mailed directly to the successful bidder after all checks have cleared (up to 21 business days). The successful bidder is responsible for any transfer fees.

What will I receive on the day I pick up my horse?
All horses will be sold with a current negative Coggins test. Any horse transporting across state lines will also be sold with an Interstate Health Certificate for transportation. Cost of Coggins test and Interstate Health Certificate will be paid by the University of Missouri. [Cost of international paperwork for import of horses, if required, is the responsibility of the successful bidder.]

All horses will be sold with a paper copy of their sale portfolio. These portfolios (available the last week of the auction) include a letter from the Equine Program Coordinator describing the horse, additional photographs, extended pedigree information, training journals, current housing and diet, and complete health records. This sale portfolio is provided to the successful bidder so they will have it for reference on their new horse.

All horses leave with a 50 lb bag of the grain they are currently being fed. This is generously donated by Cargill Nutrena in support of our auction and teaching program. Additionally, all horses sold with an equine mineral tub donated by MLS.

What is your sale average?
Our five year historical sale average ranges from $1,500 to $2,400 per horse. In the past five years, the price on our highest selling horse has ranged from $1,200 to $3,300 with an average high price of $2,740.
Sale Terms and Conditions

All proceeds benefit the MU Equine Program and support student activities in our teaching program! Funds are directly used to care for our teaching herd and purchase classroom supplies. Additionally, this auction provides valuable real-world experiences for our students through training horses and professionally communicating with potential buyers.

Terms and Conditions: By accessing this website, you agree to be bound by this website’s Terms and Conditions of Use, all applicable laws and regulations, and agree that you are responsible for compliance with any applicable local laws. If you do not agree with any of these terms, you are prohibited from using or accessing this site. The materials contained in this website are protected by applicable copyright and trademark laws.

Applicable Law: There are no warranties or guarantees as to the fitness for any particular purpose(s) of any horse offered in this sale. All known unsoundnesses or vices have been documented, placed in the horse’s permanent records, and made available for review before bidding. This information is provided in each horse’s sale portfolio (see “Representation of Horse” in this document). Every effort has been made to give complete disclosure of all known negative factors (health, disposition, management, etc.) on all horses in the sale. However, no agent of the University of Missouri can or shall be considered responsible for any oversight of a fault. Horses are offered for sale on an “as is” and “where is” basis. All horses are sold “caveat emptor” (buyer beware)! All sales are final.

Representation of Horse: Representations on disposition and handling are opinion and given only as an indication of the horse’s capability. Bidders should inspect, examine and research each horse to their satisfaction. Complete health records of each horse are provided in each horse’s sale portfolio. This includes documentation of all vaccinations, deworming, Coggins test, farrier care, dental care, mild cuts and abrasions, lameness, etc. A veterinary statement will be included on any horses with major surgery or serious illness.

Sale portfolios will be available for inspection at our sale horse preview or via e-mail the week before the auction ends. These portfolios include a letter from the Equine Program Coordinator describing the horse, additional photographs, extended pedigree information, training journals, current housing and diet, and complete health records. This sale portfolio is provided to the successful bidder so they will have it for reference on their new horse.

Horse Sale Preview Event & Public Inspection: Prospective bidders are urged to inspect the horses before offering a bid. Any desired veterinary examinations are to be conducted prior to close of the auction at the bidder’s expense, and by appointment only. Horses are available for public inspection on November 3, 2018 between 10:00 am to 2:00 pm to allow potential buyers an opportunity to personally inspect our sale horses, browse through their sale portfolio, and view them being worked by their student
trainers. The student trainers will be working with the horses throughout the day and our marketing students will be available to visit with prospective buyers. Our marketing students work to plan and produce the preview. This preview event is a huge part of providing real-world business experience to our students, and is held at the University of Missouri Equine Teaching Facility, located at 4400 E. New Haven Road, Columbia, MO.

Potential buyers may also set-up times by appointment to view horses. Bidders not able to attend the sale preview may request copies of sale portfolios via e-mail. Information regarding the contents of sale portfolios may be found under “Representation of Horse” in this document. Questions about sale horses can be directed to Marci J. Crosby at (573) 884-7836 or MUEquine@missouri.edu.

**Liability:** *Examine horses at your own risk.* The public is cautioned to be extremely careful while on the grounds examining horses and particularly while horses are being ridden. Do not enter stalls or paddocks unattended under any circumstances. A student or staff member will be happy to assist you in viewing the horses.

Neither the University of Missouri, nor its employees, students, volunteers, officers or agents, assume any responsibility for any injury, death, or damage to a person or animal of any kind. For liability reasons, horses may only be handled and ridden by students in the University of Missouri program.

**WARNING:** Under Missouri law, an equine activity sponsor, an equine professional, a livestock activity sponsor, a livestock owner, a livestock facility, a livestock auction market, or any employee thereof is not liable for an injury to or the death of a participant in equine or livestock activities resulting from the inherent risks of equine or livestock activities pursuant to the Revised Statutes of Missouri.

**Bidder Registration:** A bidder must go to https://horseauction.missouri.edu to register and be approved to receive a user name before they can begin bidding. By placing a successful bid, the bidder is entering into a binding agreement with the University of Missouri. Only persons who can enter into legally binding contracts under applicable law may bid. Bidders must be 18 years of age or older to register for this auction. If a bidder is registering as an agent or using a business name, bidder represents that they have authority to bind the user or business name to these Terms and Conditions.

Bidder is responsible for providing accurate registration information that will be used to identify them to this on-line auction and allow the University of Missouri to contact bidder. Bidders should update any changes in contact information immediately. Any error caused by bidder’s failure to do so is not the responsibility of the University of Missouri.
Bidding Procedure & Proxy Bidding:
1. Create a bidder name and password or sign in with a previous account.
2. Click on the “make bid” button on the screen for the horse you wish to bid on.
3. Bidders are responsible for monitoring their bidding activity. Bidders will NOT receive notification if another bidder outbids their bid. While the pages are refreshed automatically, bidders are advised to also refresh the pages on their own.

For bidding assistance e-mail Marci J. Crosby at MUEquine@missouri.edu or call (573) 884-7836. **All bids are in US Dollars and are non-revocable.**

All bidding will be performed on the Internet by registered and approved bidders. A bid by any person shall be deemed conclusive proof that such person is familiar with the Terms and Conditions as stated herein and that the bidder agrees to be bound by them.

A bidder may place individual bids that are $100.00 higher than the previous bid. If you are outbid, you may log in and make a new bid each time. Alternatively, a bidder may place a confidential maximum (proxy) bid, where they declare the maximum dollar amount they wish to bid. The auction will automatically execute a bid on their behalf if you are outbid, until the bidder has successfully purchased the horse or the asking price exceeds the amount of their maximum bid. Maximum bids are strictly confidential and are not known by other bidders or the University of Missouri. **It is recommended to place a confidential maximum (proxy) bid to ensure that you as the bidder do not get outbid until your limit is reached.** With this system, a bidder doesn’t have to watch the auction continuously to make sure they are not outbid. However, bidders should still monitor bidding periodically. If a bidder’s maximum (proxy) bid is outbid before the auction closes, you may place additional bids as desired and as time allows.

For example, if you have a proxy bid in place for a horse at $2,000 and the current minimum bid is $1,200 your first bid will be placed at $1,200. If another bidder puts in a bid at $1,300, a proxy bid will be placed under your name for $1,400. This general process would continue only if there are competitive bids, and only up to the maximum proxy bid amount submitted.

**Extension of Bidding:** If a bid is placed on a horse during the last 5 minutes of the auction, an additional 5 minutes will be added to the countdown timer on that lot to extend bidding. Only after a 5-minute period passes with no additional bidding will the bidding close. This allows for bidders to have more time to think and react than with a live auction. For example, if on November 9th, a bid is placed at 6:59 pm, then the bidding will be extended until 7:04 pm. If there are not additional bids then the auction will close at that time. However, if for example another bid is placed at 7:01 pm, then the bidding would be extended to 7:06 pm.
Closing of Bidding & Notification of Successful Bidder: The bidder agrees that if they have the winning, final bid, or accepted bid in auction, they have entered into a binding agreement with the University of Missouri to purchase the horse. When bids close, all sales are final.

Transmission time varies and bids are time stamped by the host computer with the time received. Bids must be received by the host computer prior to close of the auction to be accepted. The MU Online Horse Auction and Fundraiser closes at 7:00pm CST on November 8th, 2018 unless bidding is extended. The University of Missouri will decline any bids made by parties who have defaulted on former purchases, or persons who, at the discretion of the University, are not responsible bidders, and the University of Missouri’s decision shall be final. The successful bidder will be notified by telephone on November 10 and receive a formal letter of purchase at pick-up.

Bidding Errors: Bidders are responsible for any bids placed under your username and password. The security of bidder information is the sole responsibility of the bidder. The bidder will be responsible for any and all bids placed under the assigned name and/or number. The bidder should make sure to review all bids before and after submitting.

If, at any time, the bidder feels that their username and password have been compromised due to lack of security on their part or an error has occurred, the bidder must notify the University of Missouri Equine Program immediately at (573) 884-7836 or MUEquine@missouri.edu.

If an error occurs and a winning bid is placed that is not an increment of $100.00 as stated above, the successful bidder agrees that the amount will be rounded up to the closest $100.00 increment. For example, if a bidder fails to bid at the proper increments and places a winning bid at $1,145 they agree that they will pay $1,200 as the purchase price.

Bidding Disputes: Should any dispute arise between any two bidders, the University of Missouri shall adjudicate the dispute and the decision shall be absolute. Bids received after the closing of the sale are not valid. The University of Missouri reserves the right to reject any and all bids.

Risk to Horses: The successful bidder, after notification of purchase, assumes all risk and responsibility for the horse. The successful bidder must assume full responsibility for damage or bodily injury done to themselves or to their employees in connection with the removal of the horses. After the conclusion of the auction and until the pick-up of horse(s) by owner, neither the University of Missouri, nor its employees, students, officers or agents, shall be liable for any accidents, disease, death or injury to any horse. Nor shall the aforementioned agents be responsible for any accidents or injuries inflicted by the horse on any persons, facilities or equipment. Successful bidders are encouraged to consider equine insurance.
Release of Horse to Successful Bidder: All horses must be removed from the University of Missouri by 12:00 pm (noon) November 15th, 2018, with pick-up times set up in advance by appointment. The purchase price must be paid prior to the removal of the horse(s). After the conclusion of the auction and until the pickup of horse(s) by owner, the University of Missouri shall continue to provide all normal care. University of Missouri students or staff will be available to assist with the loading of the horse(s), but without any liability being accepted for injury or accidents to animal(s), persons or equipment.

A $25 a day boarding fee will be assessed for horses left after 12:00 pm (noon) on November 15th, plus any other expenses that may be required to maintain the horse until pick-up. If the horse is paid for but not picked up within 30 days, ownership of the horse will default back to the University of Missouri, unless previous arrangements have been made in writing with the University of Missouri Equine Program.

Payment: The successful bidder must make payment by a certified or cashier’s check made out to “The Curators of the University of Missouri” in advance of the removal of the horse from University property. This can be paid at pick-up if horse is picked-up before noon on November 16th. Payment must be made within 10 days of notification of successful bidding, unless previous arrangements have been made in writing with the University of Missouri Equine Program.

Default of Payment: If any person shall purchase a horse and not pay for it, the University of Missouri shall have the right to resell the horse and / or has the option to bring legal action, in which event the bidder agrees to pay all cost of such suit together with reasonable attorney fees as fixed by the court. The defaulting bidder agrees to pay the University of Missouri a $400 penalty plus all costs of resale and price deficiency, if any. Interest of 1.5% per month will be charged on the unpaid balance of any account not paid for as set forth in these conditions.

Registration Papers: Registration papers and signed transfers will be mailed directly to the successful bidder after all checks have cleared (up to 21 business days). The successful bidder is responsible for any transfer fees.

Coggins Report & Health Certificate: All horses will be sold with a current negative Coggins test. Any horse transporting across state lines will also be sold with an Interstate Health Certificate for transportation. Cost of Coggins test and Interstate Health Certificate will be paid by the University of Missouri. Cost of international paperwork for import of horses, if required, is the responsibility of the successful bidder.

Care of Horses: As a condition of the sale, the successful bidder assumes full responsibility for the proper care and shelter of the animal in accordance with humane standards and the requirements of applicable laws.

A new day is dawning in equine nutrition. EastKeeper Exceltra and Suprema premium feeds feature MFA Shield Technology, cutting-edge, research-proven additives that provide improved immune function, exceptional feed efficiency and a proprietary blend of botanical extracts and minerals. It’s an innovative, all-natural concept in equine nutrition that helps keep your horses active, healthy and free from allergies.

Exceltra is designed for horses of all ages, with enhanced levels of carotenoids for growing, show and working equine. The beet pulp-based formula is low in starch and sugar for those with metabolic issues and sensitive digestive systems.

Suprema was specifically developed for older horses with added fat and digestible fiber sources. The extruded pellet formulation has a beefy, meaty base and contains low levels of sugars and starches.

Break free from ordinary feeds with premium equine nutrition from MFA.

Contact your MFA Sales Rep for additional information, or call (877) 639-6911.
